ALL OVER THE WORLD IN A WEEK.

Natural gas has been struck at Carrollton at a depth of 270 feet.

Two of John Blankenship's little girls, at Ashland, were seriously burned by their clothes catching fire.

Gov. Buckner has granted Wm. Patterson, since condemned and murdered at Louisville, a respite of ninety days.

A great drought prevails in the north of China, which is having the good effect of facilitating repairs of the destruction caused by the Yellow River inundations.

China papers state that a syndicate is said to be active again, and it is reported that the Associated National Bank will be organized and that a railroad will be constructed from Tung Chong to Tientsin.

A Swiss and Italian syndicate has been formed which will advance to the Italian Government 50,000,000 francs to enable it to complete the Simplon Railway tunnel and the railway lines which will connect there-with.

John F. Davis, State Commissioner of Agriculture, in his monthly report gives encouraging accounts of the crops in Kentucky. The severe snow, sleet and freeze of January did but little damage; not nearly so much as supposed.

Councilman Lawrence Gintermouth was assaulted by George Luther, a barkeeper, at Louisville, Friday night, and seriously wounded. He cracked the former a fearful lick between the eyes with a brass beer spigot. The row was the result of a bar-room brawl.

The President and Mrs. Cleveland, Secretary and Mrs. Whitney, and Colonel and Mrs. Lamont left for Florida on Tuesday, at about twelve o'clock on a special train. The Senators, Representatives and others going on the same invitation went on a regular train leaving a little later.

W. D. Bassell, President of the Northern Bank of Kentucky, died at Lexington Wednesday week, aged fifty-eight years. He was a native of Louisville, but had been for many years a resident of Lexington, where, previous to his connection with the bank, he was a prominent attorney.

A band of gypsies near Chattanooga, Tenn., seized an eleven-year-old boy, threw a log over his head, and then severely tied him to a tree and left him. The boy finally released himself and ran home. He was dangerously injured, and the Sheriff and a posse went in pursuit of the gypsies.

They say a man left Waxahachie, Texas, recently driving a yoke of oxen; that one of them died from overheat, and that while he tarried by the wayside skinning him, the bilizard came and froze the other to death.

• Were we in the habit of lying, we'd right now sure quit in disgust.

Martin L. Scott, who murdered his wife at Granite, November last, was hanged at Deer Lodge, Montana, Friday. Scott spent his last night in playing cribbage, retiring at twelve o'clock, after decorating himself with ribbons. The march to the gallows commenced at 11:37, and the drop fell at 11:48.

Congressman Taubee, of Kentucky, looks far different in Congress than when in his district in the mountains of Charles Egbert Craddock. He here dresses well, but at home he puts on the blue jeans of the wild mountaineer and changes his kid shoes for brogans. He makes capital with his constituents by boasting that he is one of them, and it is said that he pulls off his shoes in their presence and points to his horny feet as being those of a plowman.—New York World.

The citizens of Anaconda, Montana, are anxiously looking for Wm. Martin, who shot and killed Patrick Reardon. Reardon had been stopping at the planters' and owned a small bill. Martin asked him for the money, and in the discussion which followed knocked him down with the butt of his revolver and then shot him through the head. Martin will be lynched when caught.

Col. R. F. Cockrell, one of the largest taxpayers in the county, and a progressive man, says this county could afford to give absolutely \$150,000 to the C. & W. V. Railroad, and then reap benefits from the investment. We are of the same opinion; but they do not ask it. Why should we then such being the case, demand unheard-of restrictions in their charter and throw obstructions in the way of our own progress? —Montgomery is the only county on the line of the C. & W. that has thrown up necessary obstacles in the way of procuring a charter. It would be well for a few chronic kickers and constitutional objectors to remember that Montgomery does not run from the heads of the rivers to the ends of the earth, and it is not an impossible matter for a railroad to be built around it. They may find this out when it is too late.—Mt. Sterling Gazette.

Any and everything that can be executed with new type, first class presses and fine paper, in the hands of skillful mechanics, may be had at this office at less than city prices. Kentucky Legislature—SENATE—Mr. Peratt offered the following: House bill 184, incorporating the Oil and Reservoir Pike Railroad Company, with amendment by way of substitute. Amendment adopted and bill passed.—A bill to authorize the extension of the Powell's Valley Railroad from the Virginia and Kentucky State line into Bell county. Passed.—Senate bill amending act incorporating the Mt. Sterling Coal Road Company, with House amendments. Amendments passed.—A bill incorporating the Ezel Male and Female Academy. Passed.—A bill to create a Board of Commissioners for Maggoffin County. Ordered printed, recommended to Committee on Propositions and Grievances.—House bill for the benefit of W. B. Ballou, Sheriff of Owsley County. Referred to committee.—Mr. Stewart: A bill to declare Beaver Creek, in Floyd and Knott Counties, together with its tributaries, a navigable stream. Propositions and Grievances.—A bill for the benefit of John W. Conals, late Sheriff of Perry County. Passed.—House—Mr. J. M. Oliver: A bill to authorize George W. Smith to erect a mill dam across the Rockhouse Fork of Big Creek, in Pike County. Passed.—Authorizing the Secretary of State to furnish the Circuit Judge of the Thirteenth Judicial District certain books. Propositions and Grievances.—Mr. H. H. H. bill to incorporate the Ezel Male and Female Academy. Passed.—Mr. Mulligan: To amend an act, entitled "An act to incorporate the Mt. Sterling Coal Road Company." Amended and passed.

As the Blair bill which, in accordance with the Engineer's report, predictions has passed the Senate, proposes to dump \$2,000,000 out of the Federal Treasury, an analysis of the vote thereon may prove entertaining. Though a distinctively Republican measure, the division was very far from being on party lines. Sixteen Democratic Senators voted for the measure, as follows: Berry, Arkansas; Brown, Georgia; Call, Florida; Colquitt, Georgia; Daniel, Virginia; Eastis, Louisiana; George, Mississippi; Hampton, South Carolina; Hearst, California; Jones, Arkansas; Paevo, Florida; Payne, Ohio; Pugh, Alabama; Ransom, North Carolina; Vance, North Carolina; Walcott, Rhode Island; Williams, Missouri; and Virginia, also voted. Twelve Republican Senators voted against the bill, as follows: Aldrich, Rhode Island; Davis, Minnesota; Farwell, Illinois; Faye, Maine; Hale, Maine; Hawley, Connecticut; Hisecock, New York; Ingalls, Kansas; Jones, Nevada; Plumb, Nebraska; and Wisconsin.

The measure now goes to the House, where it will sleep the sleep that knows no waking.—Cincinnati Enquirer.

C. P. Marcum was arrested at Somerset Thursday week by United States Marshal Hughes, for passing and having in possession a quantity of counterfeit money. Marcum entered the billiard hall of Crane and Tomlinson, and passed some counterfeit nickels on Mr. Tomlinson. He, suspecting something wrong, went out to show Marcum the city, and meeting officer Hughes turned the man over to him. When searched, a quantity of spurious coins, and money enough to make California, Colorado and Nevada dead sure for the nominees.

A young white girl, who recently committed forgery in Texas, but who was absconded free from other sin, was sentenced to the penitentiary for two years. Last week the penitentiary contractor called at San Francisco for the prisoners and, in taking them away chained the young girl to a black brutal negro woman. The people are justly indignant, and every effort will be made to secure Executive clemency for the girl.

The Assistant Postmaster at Paso Del Norte, Texas, has been arrested for mail robbery. He abstracted at various times valuable articles from letters passing through the office, among them some diamonds intended for President Porfirio Diaz in the City of Mexico. Nineteen diamonds valued \$10,000 have been recovered by the officers making the arrest, and a clew has been found to others that were pawned or given away. The name of the culprit is Fleury, and he has moved in the swell circles of society until now. It was known to the Post office authorities for some months past that there was something wrong in the T. P. office, but no tangible proof could be obtained until Friday.

Chicago, St. Louis and San Francisco are clamoring for the National Democratic Convention. Mt. Vernon, Illinois, a town of about 3,000 people, on the Louisville and Nashville Railroad, about seventy-five miles from St. Louis, was visited by a cyclone at 5 o'clock Sunday afternoon, and a score of houses blown down. Fire broke out in the ruins, and for a time the whole town seemed doomed. Among the houses wrecked were the Court House, Methodist Church and Commercial Hotel. The storm struck the town from a south-west direction, and was over in Mount Vernon in a few seconds. Mount Vernon is one of the most enterprising towns of Southern Illinois. It is the seat of the Supreme Court for the Southern portion of the State. A large two-story brick school house did not withstand the terrible shock any better than the smallest house in the track of the cyclone. A large two-story frame house was picked up and carried about twenty feet and left unburned, while two brick buildings in one hundred feet were left in ruins. The loss can not be estimated, but not less than \$500,000 worth of property has been destroyed by the cyclone and fire. Thirty-one deaths have been reported and it is feared there are many more, while the wounded number over 100. The dead and dying are scattered throughout the city. All the doors of the remaining houses have been thrown open to the less fortunate. These forty-four in business portion of the city is ruined financially. Many people who escaped with their lives have nothing besides. Many are walking the streets with no homes to go to.

A Ku-Klux story comes from Enos, a small settlement in Florida. Dr. Enos, a large property-holder, started the town and named it after himself. One morning recently he discovered a warning nailed to his door ordering him to leave the place at once on pain of death for neglect or refusal to obey it. It had the usual skull and crossbones attached and was very threateningly worded. No reason was given for the outrage, but outside the reason assigned is that the doctor has been advertising the advantages of the place too highly, and when poor men settled there they became discouraged. The doctor buckled on his revolver and threatened to shoot at the first sign of any disposition to run him out. The matter has created an intense sensation on the entire east coast.

As soon as Blaine's withdrawal was announced the Lewiston (Me.) Journal sent to the prominent Republicans of the State this question: "Assuming that your first choice would be Mr. Blaine if he would accept, who is your second choice for the Republican nomination for the Presidency?" The returns, so far as received, make this showing: Whole number of votes, 154; John Sherman, 52; General Sheridan, 18; Senator Allison, 16; Senator Hawley, 12; Chauncey M. Depew, 11; Robert T. Lincoln, 16; General Sherman, 6; General Fairchild, 6; Senator Evans, 5; General Harrison, 5; Senator Fiske, 4; General Graham, 2; Senator Hale, 1; Congressman Reed, 1.

After being out for three days the jury Friday returned a verdict of not guilty in the case of Mrs. Cynthia Embree, on trial in the Fayette Circuit Court, charged with murder of her husband, Lowrey Mundy, in 1883 to secure over \$20,000 insurance on his life. This is the third trial of the case, the juries hitherto having failed to agree. Dr. Davis, son-in-law of Mrs. Mundy, charged with complicity in the murder, was convicted and is now serving a life sentence in the penitentiary.

Charles Bowles, colored, has been jailed at Mayville on the charge of murdering a colored man, Charles Summers, at Sharpsburg, the first week of last December. Bowles will be taken to Owensville for trial. He was arrested near Concord, Lewis County, where he had been employed on the new railroad.

Mrs. Rebecca Aker, of Paris, grandmother of Miss Cynthia Embree, has brought suit against C. V. Higgins, Esq., charging him with betrayal and desertion of Miss Embree. The mother of Miss Cynthia died several years ago, and her father, John Embree, is living near Newton with his second wife.

"OH, COME AND HELP ME OUT!"

There are some folks who of advice will never take a bit. Though age and time may often offer it. And yet who in their trouble can't find it. For and they loudly cry. And all expect of from any friend Who chances to be near. "Take care," you say, "this road is not." Of follows hereabout. But on they go unheeding all. You hear them splash, and shout: "Oh, dear! I've fallen into one!" "Fool, come and help me out!" Now it's my firm opinion that If they were left to stay Awhile where they had placed themselves 'T would be the better way. And then, perchance, while struggling hard They're rescued dry ground once more. They're often to be found of those Who'd give that way before. But just as long as some good soul, Forgive me, but I'll say so, Runs to their rescue, just so long, I haven't any doubt, Such folks as these will fall in holes, And cry: "Come help me out!" —Harper's Bazar.

RUSSIAN CUSTOMS.

How Marriages and Funerals Are Managed.

Widdows Conducted by Paid Embassadors — Weddings Alight at Night — Singular Death Announcements — Burial Rites.

In no feature in Russian life is there a wider variance between the order of doing things in America than courtship and marriage. Every thing is done by negotiation, and marriage ambassadors are quite as common and respectable as probate lawyers in the United States.

Until a few years ago the popular age of marriage was very low. Boys fourteen or fifteen years old, and girls from twelve to fourteen married, and the parents were universally glad of it. As soon as the girl got out of swaddling clothes, or the boy could amble around on the streets, the parents began to cast about for a match. When an opportunity presented itself the ambassador was employed and negotiations were begun. Thus it frequently happened that there was a betrothal before either of the contracting parties knew any thing about the existence or object of the marriage vow. Finally this thing became an excess, and the Government declared it a crime for persons to marry under or above certain ages. Now the male under eighteen or over eighty years of age, and the females are forbidden to wed till they are sixteen or after they are sixty. And there are restraints against frequent marriages, which would quite discourage the professional widowers and widows of the United States. If you marry twice, the law of the church, which is the law of the land, gives you two years' penance, which means exclusion for that length of time from holy communion. Should you marry three times, five years' penance are given. To marry a fourth time is to sever relations from the church forever and invite the condemnation of the State. Remarriages are unknown here, and separations are final.

Girls of marriageable age and women of respectability are very seldom seen upon the streets alone. Generally a male servant follows in close proximity. Should a boy or man see a girl or woman he admires, he makes not haste to an ambassador, employs him, and marriage negotiations begin. It is the business of the negotiator to represent to the parents and the girl the good qualities of the young man; to show his ability, his grace, fine appearance and business worth to their best advantage. He generally pleads his case well. Sedition is time given for consideration. If the lineage and the personal qualities suit the parents first, and the girl latterly, the offer is accepted. It is then the business of the ambassador to fetch forth the young man. They kiss in the darkness, and of a betrothal supper, the only persons present being the family of the young lady, the young man and his negotiator. No announcement of the match is made. Not until the wedding knot is tied does the girl's ambassador get his pay. It then depends upon the station of the parties to the match, the sternness and intricacy of the case and the liberality of the client. Sometimes both parties make him presents and he fares well. Usually he profits to about the same extent as the prosecuting lawyer in the United States when he gets a divorce proceeding through the courts.

At one time there was a fixed day for match-making. It was Whit Monday, and was known as the "day for choosing brides." The summer gardens were the exhibiting places. The anxious mothers were present in force, and the solicitors fathers looked after their daughters. They were dressed in all the finery they could

buy or borrow. They wore silks, satins, laces and jewels. Some of them were gaudy. The girls were placed in rows, and the fathers with their sons passed along in review. The latter made mental memoranda of the girls, and during the following week negotiations followed. Although this custom has been almost abolished, it is yet observed to some extent, and in summer garden on a Whit Monday is an interesting place to visit. The girls are modest and oftentimes pretty.

Russian marriages invariably take place at night, and if they are among the peasants, to which class the "negotiation" custom is now mostly confined, the ambassadors who handle the match is the principal guest. First, the wedding garments receive the priest's blessing, the parents solemnly bless the daughter and son at their respective homes, and the sacred pictures are three times waved over the heads of the contracting parties. If the parties are of sufficient importance, there have attendants, the lady in honor leads the bride-elect to the carriage, and then they proceed to the church. The bridegroom in prospect is meanwhile at his own home, and couriers from his affianced bride's abode run to tell him it is time to be at the sanctuary. So the bridegroom-elect puts out for the church. When the pair proceed to the altar they carry wax tapers, and the belief is that the taper which first burns out marks the one first to die. In the upper circles there is the wedding-ring and the ceremony of pledging faith and purity, much the same as in America. While the latter part of the ceremony is taking place mixed wine and water is passed to the assembly. After the ceremony the priest and bridal couple walk three times around the altar, where the rest of the guests are seated. When the exhortation is said the pair must kiss three times. Then there is a benediction, and the bride and bridegroom go together and kiss all the holy pictures on the iconostasis. The whole proceeding occupies half an hour.

If the marriage is in society circles a feast follows at the house of the bride's parents, and the guests get drunk. If the marriage is in the families of the peasantry the bridegroom leads the bride to his home. There, on the steps to the home, his parents stand to greet them, and they are blessed with bread and salt. While this is going on some of the neighbors present give them milk to drink and pour over them barley and down. The first is in hope that the children of the couple may be white, instead of black, and the second that the newly-mated may live harmoniously, for many Russian husbands and wives fight like dogs, and place upon the head of a married woman's head-dress, the customary courtesies and retinue. They sit down on a bench, and the mother-in-law or some other female relative removes the handkerchief which covers the blushing bride's face, braids her long tresses and places upon her head a married woman's head-dress.

It is now late at night, may be, but a "wedding breakfast" is served with great spirit. Originally, it was the custom, among the peasants, for the bride and bridegroom to retire during the breakfast. Then, as now, all men and women were boots. The bride, although then now, every bed-chamber had a boot-jack, the bride must pull off her lord's boots. Before the marriage ceremony he fixed a scheme to determine her lot in life. In one boot he secreted the surplus gold and silver coin he possessed. If the bride pulled the boot possessing the valuables first, she not only got the money but immunity against ever drawing her husband's boots in the future. If, however, she first got hold of the boot not containing the money, she was subject to her husband's whims. If he choose to use her hands for a boot-jack at any time he was licensed to do so and she had no recourse.

Of course, in the higher grades of Russian circles the customs partake more of the American and English. But in the country and among the ordinary folks the old-time usages are preserved. The Russian wife is expected to stay at home and look after her many children and know nothing. The fasts and festivals of the church afford about the only relief from monotony a Russian wife ever finds. Lying away from the world, it is no wonder the Russian woman often depends upon the witchcraft of women medical advisers for their physical cures, and have so many superstitions about spiritual ailments. All Russian women are superstitious, and the percent of those educated is probably lower than any other civilized women in the world.

An American in Russia must exercise great care and deliberation in acting upon letters, notes and invitations received from his Russian friends. He would do well to consult a native. Should he receive a missive making an announcement like this: "My dear friend, I have just received a letter from my wife, and she says you must take it for granted

ed that a call is desired, or that a dinner or theater-party is on hand, for I have just received a letter from my wife, and she says you must take it for granted

HONEST CARL DUNDER.

He Calls on the Police Sergeant and Receives Another Tale of Woe. "Sergeant," said Carl Dunder as he softly slid into the Woodbridge street station yesterday, "mebbe I like you to explain something to me."

"I suppose you have been swindled again?" "Yell, how can I help him? Not things has two times slid in dis country. Yesterday a man comes in my place and says vhas I Carl Dunder? I vhas. All right. Say, Mr. Dunder, I like you to keep five dollar for me a leedle while. If I play pool mit der poys I go broke. If I leaf him mit you I vhas all right."

"And you took it?" "Of course. If I can oblige somebody, I like to do him. I put dot bill in my wallet, and in about two hours der mans come around some more. Mr. Dunder, I vhas eafar so moech obliged to you for your kindness, and I take my money back. If you cost to be so extremely kind as to give me five dollar in silver I always remember you."

"And you did?" "Yhell, I like to oblige somebody, and I gift him silver."

"And the bill was a bad one, of course. That game is twenty years old."

"He was some games, eh?"

"Of course. It's a wonder the boys haven't played it on you before. Any thing else?"

"Yhell, a shentleman's come along two or three days ago mit fur on his money. Vhas I Carl Dunder? I vhas. All right. Mr. Dunder, you vhas known all oafar Cleveland, und der shildrens cry for you. I gift ten thousand dollar if I vhas like you, but dere vhas only one Carl Dunder. Shake, old fellow."

"Any vash shoo?"

"Yhell, don't I feel tickled dot somebody in Cleveland hares of me? We haf some peer, and he tells me dot he lose all his money mid der depot by a tief. He doan like to see his name in der newspapers, und so he keeps shill."

"And he wanted to borrow of you, of course?"

"Oh, no. If I let him haf ten dollar on his diamond pin he takes him back in two days. Here vhas dot pin."

"Worth twenty-five cents," said the sergeant after an inspection. "That diamond is only glass."

"Und vhas dere some deeferece between diamond and glass?"

"I should remark! That was a rank swindle. Any thing else?"

"Yhell, dot vhas curious if I vhas shwindled, because dot mans almost cry when he talks to me. Dis morning some more stranger come in. He haf a book und a pencil, und he says if I lead dot package in der express office one day longer he vhas sold for old horse. I doan get some notice of dot package, but he says it vhas a look oafar. It vhas a dollar to pay und I should go oop shookey quick."

"And you paid?"

"Yhell, if some expressman says it vhas a dollar how shall I help it. Can I tell dot express company to get mit Texas und keep dot package?"

"And so you paid and went to the office."

"Of course, und dere vhas no package for me."

"Certainly not. He was a fraud. Any thing else?"

"Yes! Sergeant, look on me!"

"I'm looking."

"Vhas going home! I go behind bar und take off his coat und shawl. In a few minutes a shentleman comes in. Vhas dis Carl Dunder? He vhas. Mr. Dunder, we haf a leedle poll tax on your head, und you doan come oop mit der city hall. Der tax vhas one dollar, and you—"

"And what?"

"He vhas a corpse mit his neck proke, und I goes oafar mit der patrol boat und sends for der wagon! I like you to come oop mit der poys. If dere vhas some inquest you can speak for me dot I vhas out of my head mit my troubles. Good-bye, Sergeant! Look out then dot bell rings! Some hens vhas on!" —Detroit Free Press.

—Mr. Chutlain, who recently visited Malange, a large town in the interior of Africa, about 250 miles west of Lourenco, says that as he entered the place he heard harmonious sounds proceeding from a long building, where he found quite a number of Americans singing the songs of their native land to the accompaniment of an organ, a violinello, and a cornet. They were led by Bishop Taylor's missionary bands. Their cheerful singing, the vivacity of their movements, and the good color of the five children and three women in the party convinced the traveler that the climate of Malange is far from being as enervating as that of the coast. This station is the furthest inland of any of Bishop Taylor's Angola missions.

—Hermann, the magician, says he has been around the world three times looking for a ghost. He doesn't believe in any supernatural manifestations of any kind. He says the best kind of sleight-of-hand tricks or mind reading exhibitions are accompanied by the aid of accomplices.

—There are nine surviving ex-Governors of Massachusetts, namely: George S. Boutwell, Henry J. Gardner, Nathaniel P. Banks, William Claflin, William Gaston Alexander H. Rice, Benjamin F. Butler, John D. Long and George D. Robinson.

—Miss Ruth Oberly, one of the six pretty and clever daughters of Civil-Service Commissioner Oberly, is one of the wittiest young women in Washington society. She recently remarked: "People reside in Boston, live in New York, dwell in Philadelphia, sojourn in Washington and inhabit Chicago." So every nice distinction are here made in an epigrammatic way.

—Charles Edward Lester, an old-time writer and journalist in New York, and for eight years United States Consul at Genoa, Italy, was last week found in a beggarly condition in New York and taken care of by friends. He is an old man—seventy-two years old—and one of his best works was "The Glory and Shame of England, published in 1841." His latest works are: "Life and Services of Charles Sumner," and "Our First Hundred years."

—Count von Moltke is very simple in his habits. Whereas most Germans eat five times a day, he has only three meals, which he takes punctually at eight, twelve and four. He is very fond of family life, and often plays with his little nephews and nieces, who live in his house. He seldom receives company, but has an occasional musical evening. He seldom takes part in the conversation except by a short, witty remark. He is very fond of whist.

20 Election Monday, August 6, 1888.

Gov. BUCKNER has again shown the interest he feels in the people of his Commonwealth by vetoing the charter of the Kentucky Midland Railroad. We extract from his veto message the following facts which show to what extent corporations will go when given a charter. The scheme in this charter was one of gigantic magnitude, and had it become law the people would have paid dearly for their whistle.

"The thirty-fourth authorizes the railroad to build branches from said road, and branches from such branches," and to "consolidate with any other railroad or roads already constructed or hereafter made," and the provisions of this act shall extend to such branches and extension, and to the counties, precincts, cities and towns lying upon or adjacent territory."

"Constructed together, these sections mean that the road might successively project its branches, and make its consolidations in such a manner that it would never be completed, and would therefore be forever exempt from taxation, whilst constantly enveloping in its grasp the new fields on which to levy its contributions."

"With permission to go where it pleases, to consolidate with such corporations as may suit its interests; to carry to its allied roads all the privileges of its own charter; to establish branches where it may choose, and to project branches from these branches in any direction and to a distance without limit; to levy contributions almost at will upon almost any county in the State, with permission given to the General Council of any city and Townships of any town, to guarantee the entire bonded debt of the company, principal and interest, with perpetual exemption from taxation—with all these vast and dangerous privileges, yet the company is not even required to define its route, or to commence the construction of its road-way until it suits its own convenience. The proprietor of the franchises of immense pecuniary value which it has received by donation, as a company made rich by legislation at the expense of the people, did not earnestly suggest to you, who are so near to the people whom you directly represent to correct the ill-considered legislation of some of your predecessors, by eliminating from existing railroad legislation all privileges which are of an obnoxious character, and restricting these corporations to the exercise of purely legitimate powers. The act now under consideration is intended to confirm and perpetuate such dangerous powers. Impressed as I am with the pernicious tendency of such legislation, I would be recreant to my duty if I did not in type, a bill with the objectionable clauses stricken out, was presented and passed."

D. R. LOCKE, (PETROLEUM V. NABBY) editor of the Toledo (Ohio) Blade, died in that city Wednesday week of consumption, in the fifty-fifth year of his age. He entered the office of the Cortlandt (N. Y.) Courier as an apprentice when only eleven years of age. He served seven years, and then traveled over the United States as a "jour" printer. He published several newspapers with varying success, and finally gaining control of the Toledo Blade, made the weekly a national reputation. His wife and three grown sons, one of whom is connected with the Blade, survive him. He left an estate estimated at \$1,000,000 exclusive of his newspaper property.

The House at Frankfort refused yesterday to adjourn and attend the semi-centennial celebration of the founding of the Common School system of Kentucky. There are persons in this State who insist that anything connected with or having reference to schools should be of paramount interest to the House of Representatives, but its members appear to think otherwise.—Courier-Journal, Feb. 17.

"Where ignorance is bliss 'tis folly to be wise," and the Solons, fearing they might learn something by contact with the educators of the State, dreaded the consequences.

The Cincinnati Enquirer has a new dress, and it is made up of the prettiest pattern we have seen. It is underlined with panier or pany handle, but in its get up shows a heap of haste; it prints the news of men of low estate, as well as peacocks of the potentate. It is a newspaper from away back, and of current events there is no lack; and while its society columns are a treat, it also gives the scandals on the street. One turn to it for all the news, and it never disappoints.

Commenting on the several candidates for Congress from the Ashland District, the Lexington Press says: "Few of all, Mr. Mulligan, the best State Legislator since Clay, as well as the purest; a man whose tongue almost entirely controls the Legislature, because he is not only a pure, but a remarkably able and experienced man, and can do more work in one day than the average Legislator can in a month. He takes at no jobs or schemes, except to enlighten them. An exceedingly courteous and kind hearted man, except when punctuating some schemer, and then his wit and sarcasm are as effective as a tarantula's bite. He has all the persistence of Henry Green-ville, without his meanness; a man with the grip of affairs that characterized the Red Cardinal of France. No man that ever went from this district could represent it with more loyalty and ability. And when the battle commences for the nomination, the plume of Mulligan will wave in the thickest of the fight, and his hands are of logic and rapier of wit will crack numerous slates that were fixed so nice. Mulligan needs no recommendation but his record."

We endorse every word of the above, and if the feeble assistance THE HERALD can lend his chances may be of any value. Hon. JAMES H. MULLIGAN may command us.

Mr. Anderson C. Quisenberry, familiarly known as "Q," a brilliant writer and splendid fellow, left yesterday for Boonesboro and other places in the mountains. He took Jenks, the photographer, along. The subject of this trip is an illustrated article in the Courier-Journal. Look out for it.—Lexington Sunday Press.

Now, "Cush," old fellow, if you want to illustrate the prettiest spot on God's green foot-stool, and "write up" the best people under the broad canopy of high heaven, direct your steps hitherward, and do it on the double-quick, too. You can here find the readers of the Courier-Journal "food for thought" as long as they are possessed of a "think tank." Come, and whether your coming be in the still solitude of night or the sparkling sunshine of day, you shall be welcomed. We never lock our doors, and the latch-string dangles on the outside that your entrance may not be delayed.

Some person wanted the price of a valentine, an envelope and a stamp by sending a valentine to the editor. It was a misfit. The person who sent it had better look into his, or her own eye and see if the "beam" isn't there.—Sentinel-Democrat.

Phaw, man, why don't you utilize it by converting it into wrappers for "sirloins"? That's the way we dispose of similar trash, but no one disturbs us with valentines. They probably realize that it would be "wasting sweetness on the desert air," and they are right.

Oh, no, Bro Cooper. Polk Johnson, who hasn't got a "C" in his name, is not the editor of the "In and About" column. Wm. M. Hull presides over that department.—Boatville Enterprise.

Well, then, we beg Mr. Hull's pardon for the mistake, reiterate that it is one of the very best features in the C-J., and herewith render unto him the hull credit of making it so.

JONATHAN H. GREEN, the reformed gambler, whom everybody, that ever "stood pat" or "made blind good" on "a bob tailed flush" will remember, is reported as being in New York, hunting "a quiet lay-out" where he can pass in his last "stack of ivories." P. E. He is seeking a resting place for his bones when Death "calls the tune."

GUTENMOUTH was doubtless letting down some very foul stench, when that barkeeper at Louisville endeavored to close the sewer with a beer spigot. We are surprised that a city of Louisville's chastity contains so unsavory a Councilman.

Hon. EVAN SETTLE had his little pauper idiot bill struck, even better than we had hoped for, in the Legislature last week.

At a recent meeting in Hampton some citizens of Wolfe County resolute against railroads. The purpose was to stiffen the spinal column of certain Legislators who are sticklers for what they think will guard the "rights of the people." We are slow to believe that any considerable number of the people of that county endorse such views. The people of Wolfe County have, in all the years ago, been lying, sitting and standing in ignorance and poverty for the want of railroad facilities, and are likely to remain in the same condition for many years to come if they continue to follow these "blind leaders of the blind."—Sentinel-Democrat.

A Young Wife Said to her Husband,

"My dear, I dreamed last night that you were an Angel. What is that a sign of?"

"A foul stomach," was his unpoetic answer. People who have no such pleasant night visions, and awake feeling as though they had had no rest—nerves all astringing, wondering "What on earth is the matter with me," would better take some simple treatment in TIME. Persons will neglect themselves, and put off treatment until their health is gone.

What would you think of the authorities of a great city with its miles of sewerage to "choke up" the filthy accumulations of streets and alleys allowing the sewerage to "take away" and spread contagion and poisonous gases from decaying matter to blight that city by disease? Yet your course is just as UNWISE. The human body is well provided with all that is necessary to carrying off the "unclean," and you allow it accumulate and decompose, bringing all manner of ills to the flesh. An old Chinese proverb is, "Keep your feet warm, your head cool and your bowels open." Make a memorandum of this and try it, and if you don't keep well there is no truth in the world.

We clip the following recipe for the cure of rheumatism from the Bourbon News, and as it is very simple commend a trial of it to our citizens who may be suffering with that terrible disease, in the hope and with the belief that in some cases, at least, their suffering may be ameliorated: "Take the whites of four eggs and an ounce of spirits of turpentine; put in a pint of vinegar and shake up, let stand for eight hours, and anoint the affected parts with it."

WAS THE DOG RABBIT?

Mr. Sam Henry Wilson Attacked by a Bunching Car and Nearly Hit.

Sam Henry Wilson, living on Red River, and one of the best citizens in Wolfe County, met with a painful and it is feared, a serious accident last Friday. His daughter set the dog, a little bone-legged cur, onto some chickens for the purpose of securing one to kill, and the dog getting the wrong one, Miss Wilson attempted to beat him off, when he turned upon and attacked her. Mr. Wilson, who has only one arm, went to his daughter's assistance, and the dog in turn turned upon him. Grabbing Mr. Wilson by his only hand, and sinking teeth and tusk clear through the palm, the blood thirsty brute held on with the tenacity of a turtle, tearing and lacerating the flesh at every effort its victim made to release himself. The time occupied by this occurrence was short, and the family hurried to the rescue. By dint of well directed licks with clubs, pokers, rocks and other missiles, the dog was made to let go his hold, and was promptly killed. Mr. Wilson has suffered severely with the wound, and as the dog, an old one, had never been guilty of such caprice before, there are some fears that hydrophobia may result. We hope, however, that those fears may prove groundless, and that Mr. W. may soon be restored to the full use of his hand, and be himself again.

A RESPITE.

Gov. Buckner Grants James Buchanan Ninety Days.

A Frankfort special to the Courier-Journal, Feb. 16th, says: A delegation from Wolfe and surrounding counties, headed by Circuit Judge John E. Cooper, arrived in the city this morning, and called upon the Governor in the interest of James Buchanan, doomed to die on the scaffold March 2nd for murder. The case was formerly taken to the Court of Appeals, and here the judgment of the lower court was sustained. In the meantime the day originally fixed for the execution was passed, and it became necessary for the Governor to make out the death warrant, which was done a month ago. The delegation that arrived today made a strong plea for Buchanan, and urged that a respite be granted until His Excellency could investigate fully the facts and make testimony recently brought to light. Gov. Buckner is just now occupied almost exclusively with the consideration of legislative work. He, therefore, made an order granting a respite for ninety days.

In Brief, And to The Point.

Dyspepsia is dreadful. Disordered liver is misery. Indigestion is a foe to good nature.

The human digestive apparatus is one of the most complicated and wonderful things in existence. It is easily put out of order.

Greasy food, tough food, sloppy food, bad cookery, mental worry, late hours, irregular habits, and many other things which ought not to be, have made the American people a nation of dyspeptics. But Green's August Flower has done a wonderful work in reforming this sad business and making the American people so healthy that they can enjoy their meals and be happy.

Remember—No happiness without health. But Green's August Flower brings health and happiness to the dyspeptic. Ask your druggist for a bottle. Seventy-five cents.

An exchange recounting the benefits to a town from a class of merchants who advertise liberally, truthfully states the case, as follows: "When the business men of a town fail to advertise they diminish the importance and trade of a place, and permit more enterprising localities to take the latter from them. Although done for their individual interests, advertisers should be looked upon by the citizens of the town where they reside as public benefactors, and should be encouraged accordingly. The merchant who advertises very extensively is worth more to a town than forty who never show themselves in print, and for that reason should be given preference in local patronage."

The ladies of the Christian Church, of this place, have formed an Aid Society, and by sewing propose to raise funds for the church and the poor of this community. They solicit garments to make, patching, darning, &c., and will be thankful for all patronage. One peculiar feature of this society is, that although all the members are good talkers, there will be no talk during working hours. We should like to look in upon them for a half-hour, and for that privilege we are tempted to let them tackle our socks. Patronize them.

OUR COAL AND TIMBER LANDS.

What a Wolfe County Surveyor Knows of Them, and His Advice to the People.

GILMORE, KY., Feb. 8th, 1888.

DEAR SIR—I have been instrumental in securing a great many subscribers to your most valuable paper, and I am myself I have never written anything for publication before, but for the good of the people of this country, request that you publish the following:

As I have been a practical surveyor in Wolfe and adjoining counties for the past twenty-eight years, I think I can give you some information in regard to the timber and mineral resources in the mountain counties. They have plenty of the finest timber, such as Oak, poplar, ash, shellbark hickory, chestnut-oak, lynn, sugar-tree, sycamore, buckeye, and some walnut. The best timbered lands that I know of are situated on the creeks and the heads of the different water courses, that is where you want several thousand acres in one body. On the head of Red River and Frozen Creek and the head waters of the Middle Fork, Johnson's territory is mostly a virgin forest of the finest timber I ever saw. I have seen several poplar trees that measured from six to ten feet around, and plenty of the finest oak. I want to tell you about a coal vein I saw the other day on the head waters of the Middle Fork of Licking. On the lands of Isaac Back there is a seam of solid coal that measured six feet and eight inches with a small seam of eight inches about six inches above the main seam. I think that the thickness of the coal in the mountain some ten or fifteen feet that it would all be together, which would make it more than seven feet thick. This main seam is only about one half mile from the head of Red River and Frozen Creek waters, and is in the same mountain that extends to Red River and Frozen. It is not cut off by any other hill or ridge, and if there is a seam in coal running on an level we doubt not but there is a seven foot vein of coal in Wolfe County, and on Frozen Creek for miles along its ridges and hills. There is a coal canal bank which is three feet thick on Andrew Wilson's land on the head of Red River, which is but about one hundred yards from the land of J. R. Wilson. It is evident that the coal is on J. R. Wilson's land, and with a doubt the seven foot coal is on his land and will run through the most of it, which is a fine seam of coal running through all of that country. Besides, small veins elsewhere not counted. Who wants more coal than this? But that is not all. Dr. John A. Taul has a tract of land on a creek called Morgue, the waters of Frozen Creek, with a coal vein nearly five feet thick. James A. Cope, on Davis Creek, the waters of Frozen Creek, has a fine vein of coal, and I do not know how thick, but have seen it burning; it is good coal. James Ely, on Gilmore Creek, has a four foot vein of good coal on his land, and is a splendid burning coal, and various others to tedious to mention. What do the railroad companies talk so much about the Troublesome coal in Breathitt County, when just a few miles from Railroad Station is more coal that can be mined in the next century, and more fine timber than can be taken away for years?

I want to tell you a few more about this mountain country, right now before I forget it. I think we have the best part of this State here in the mountains. We're the best timber, coal, iron ore, mica, &c. Now we all know that the interior of the State has fine bluegrass farms, but if the mountain counties that own the timber and coal would not sell them a block of coal nor a stick of wood, nor run no logs or plank, what would become of the bluegrass farms? It is less than twenty-five years they would be abandoned. The coal and timber come to the mountains to keep from freezing. Of course there are some farmers who have timber to run then that long, but not many. I am not prejudiced against the bluegrass country, I once lived in a bluegrass country myself, but I want to show my mountain people that they do not place a high enough estimate on their own homes. I now see that there will soon be plenty of railroads through this mountain country; don't know why they haven't come sooner. The South Atlantic and Coal Road will soon be extended by Hazel Green and by mouth of Frozen Creek to Jackson, the Kentucky Union will soon be built by way of Campton to the mouth of Frozen Creek to intersect the Big Stone Gap road, then there will soon be a road by way of West Liberty and the mouth of Frozen Creek to London, Ky. These are my views on railroads. I am well acquainted with this mountain country, and nature has formed this country for these roads. What a city could be built at the mouth of Frozen Creek with three or four railroads and North Fork of Kentucky River and all the different forks of Frozen Creek to bring the coal and timber to the best market in the world, for at that place they will have the advantage of the markets East, West, North, South. It has also the advantage of water navigation above and below to bring in coal, timber, iron ore, mica, &c. The surrounding country abounds with the finest and most inexhaustible quantities of all. Now, these are the reasons I think our lands are underpriced, do you understand me? If the lands in the bluegrass are worth \$75 to \$100 per acre why are not our lands worth say one-half, where they are covered with the finest timber and underlaid with eight to ten feet of coal, iron ore, mica, &c.? You will soon see whose hands this timber and coal land will fall into. Then there will be an estimated put on the value of the part of this State. A little more on the canal coal question that I was about to pass by. George W. Johnson, on Frozen Creek, has two different veins of the finest

canal coal, both large veins; don't know how thick, never have been tested by digging in the mountain. There is now a block of canal coal that has slipped out of the mountain that would take four or five men to turn over, never has been opened to know the thickness, the other vein is given up by all coal men who have seen it to be the finest canal coal in America where the veins come together. It is smoother than the finest piece of polished furniture I ever saw, and of an excellent quality of burning coal. Now, please excuse my long letter. I am yours very truly,

HOME, FARM AND GARDEN.

—Do not put iron on the stove to heat long before they are wanted, as exposure to high heat will roughen and injure them.

—Sweet potatoes left from dinner make an acceptable relish for supper if eaten in slices about a quarter of an inch thick and heated in slightly salted cream.

—Cream Pudding.—One pint of flour, one pint of milk, one teaspoon of salt; to this add six eggs well-beaten and three tablespoons white sugar and one tablespoonful of extract of lemon. Bake in a buttered dish.

—Corn Starch Cake.—Two cups of pulverized sugar, three-fourths of a cup of butter, stir to a cream; one cup of milk, the whites of seven eggs beaten to a stiff froth, two cups of flour, one of corn-starch and two teaspoons of baking powder. Flavor with lemon or orange.

The following prescription is excellent in cases of lameness from overwork or in cases of a slight strain on the back: Two ounces of alcohol, two ounces of hartshorn, two tablespoonfuls of rock salt (table salt will do). Pour the ingredients into a quart bottle, fill with rain water. Apply, rubbing vigorously with the palm of the hand.

—When the ground is hard and frozen work may be done in cutting out the surplus canes of blackberries and raspberries. The old cane is only a useless incumbrance to a vine, and should be removed while there is plenty of time for such work. A liberal application of wood ashes may be applied after removing the canes, while bone dust will also be found very beneficial.

—Fictitious roses are not to be seen as often as they should be. We do not mean specimens grown in pots, but great spreading bushes, grown as shrubs, admirable not from the flowers alone, but from their mass and freshness. Some of the best are those from insects than the tender sorts, but even these in the South almost attain the dimensions of trees. Sometimes when supported simply by rustic props they will live for a generation, which is not if tortured into artificial shapes. Cut out the dead wood and give a good soil, and no shrub on the place will give more satisfaction.

CHINESE Dainties.

How an English Lady Enjoyed Dog, Cat and Rat Meat.

The following is an extract from the correspondence of an English lady temporarily residing in Canton. She is writing to her mother, whom she has previously regarded with lively accounts of her trials in attempting to eat Chinese food in the Chinese fashion. Such experiments, for example, as catching and eating live shrimps as they hop about the tables, may be interesting to the curious, but can hardly be very enjoyable without long practice.

Before I close my letter I must tell you that I have been the victim of a wicked conspiracy on the part of my husband and the servants. You will remember that I could not be prevailed upon to taste the three delicacies of dog, cat and rat provided at the Chinese dinner, and served up in dainty bowls. Well, when Henry returned home that night he said to me: "Now, understand, your misce must eat dog, dog and rat; you got catfish and, and every morning, for the next three days, you must eat that breakfast."

Two days passed, and Henry, thinking the servant had forgotten all about his order, sat down to breakfast, and I am glad to say that the biter was bitten, for, as well as our friend, part of the dish of mince, which was served up with a wall of potatoes. This was according to Henry's wish, as he thought the potatoes, served English fashion, would be a good disguise. Having tasted, and not liking the dog, rat and cat, he said to the waiting-boy: "What fashion chow-chow this thing?"

The answer was: "Belongs one piece dog."

I ate my portion without comment, thinking it call's head minced, though the dog did occur to me that it was rather "high."

The following morning another mince was served up, of which Henry did not partake, though I did not notice this. He declares that I helped myself twice. On the third morning another of these choice dishes, ornamented again with potatoes, was handed round, and our friend, who had been into the secret, helped himself liberally, and declared the dish good. I remained in ignorance of what I had eaten until the middle of the third day, when the gentlemen burst into a fit of laughter, and told me of the hoax that had been practiced upon me; I had eaten dog the first morning, cat the second and rat the third.

Does it not show how much there is in imagination? For, had I been told beforehand what the dishes would contain, I could not have swallowed a morsel of their contents. —*Youth's Companion.*

In the present Congress fifty-one of the members were born in this State, thirty-nine in Ohio, twenty in Kentucky with twenty-four, and with twenty-one, North Carolina with nineteen, and Massachusetts with but sixteen. The great State of Texas has but one native at the capital.

Limited Express Trains.—Five Hours Saved Going West or Southwest via Chicago to Council Bluffs or Kansas City.

The "Great Rock Island Route" has adopted a fast-time schedule which guarantees a rate of speed between above named points heretofore unattained in Western railroading. Its "Council Bluffs to Chicago" Limited Express" leaves Chicago daily at 7:30 P. M., and arrives in Council Bluffs at 11:30 A. M. next day. This train, including Pullman palace sleepers (price of berth greatly reduced) and dining cars, the "Kansas City and Chicago" Limited Express" leaves daily at 5 P. M., and arrives in Kansas City at 9:30 A. M. next day. The equipment of this train is also superior and unsurpassed, consisting of new and elegant reclining chairs, Pullman dining palace sleepers (berths at reduced rates) and buffet cars. Speed, safety, comfort and luxury have been recognized as the characteristics of the Rock Island, and more than ever, are these traits maintained. The "Great Rock Island Route" service, which guarantees a delightful journey, continues hour after hour, between Chicago and Council Bluffs or Kansas City. At both these points connections are made in union depots, with fast trains running through to California and all points on the Pacific coast.

ANNEXATION OF CANADA.

The Disasters Attempt to Accomplish it by Force.—A Famous Retrospect.

The present agitation concerning the relations between Canada and the United States recalls the time when the annexation of that country was proposed to be brought about by force of arms. The project was executed by the late General Montgomery, assisted by the famous patriots, Colonels Ethan Allen and Seth Warner. While engaged in this invasion Ethan Allen was taken prisoner by the British and sent to England, where he experienced very harsh treatment.

It was Colonel Warner who twice conducted his men safely home, though the march was constantly surrounded by dangers. Once Montgomery sent them home because their time was out, and though they were willing to continue in service, they were without sufficient clothing, and some could not find food. Colonel Warner had hardly arrived home before he heard that Montgomery had been killed, and the cause, as well as the lives of the men, were in jeopardy. He collected his men again and at once started for Canada to assist his countrymen in their extremity. But his men were of no use, and it was soon found necessary to take up the line of retreat.

It was the end of winter, and only necessary sanctioned moving the troops. The terror of pursuit and the rigor of the season furnished sufficient cause for alarm and flight. Colonel Warner remained with the rear of the army, and aided them in many ways most effectually, as he was a man well posted in caring for the sick and this knowledge now came into excellent use.

He must keep the army in motion, not a day must be lost, and yet he was without any chest of medicines. But he understood the medicinal use of roots and herbs, and of proper care at critical times, and with these he was able to care for the sick and this knowledge now came into excellent use.

When Ticonderoga was reached and the roll called, both to Seth Warner but few vacancies in the ranks appeared. Col. Warner saved the lives of hundreds of men in this way, and he did a noble work, but it remained for his successor, H. H. Warner, head of Warner's Safe Cure establishment, to give the same kind of remedies then used to the people of today, in "Warner's Life-Cure Remedies." These remedies have been adopted after thorough trial and investigation, and they are remedies of established reputation. Being wholly vegetable, they can be used without any fear as to the results.

Among the new remedies a Sarsaparilla for the blood, Hoarseness and Hoarseness for the stomach and digestion, Cough and Consumption Remedy, Scrophulous for the head and hair, Bone Cream for that terrible disease, catarrh, a Log Cabin Liver Pill, a Log Cabin Plaster and an Extract for internal and external use. Our readers will be assured that there is a remedy in every ailment.

THE GREAT REMEDY FOR PAIN.

Cures Rheumatism, Neuralgia, Sciatica, Lumbago, Headache, Neuralgia, Toothache, Stomachache, Swelling, Bruises, Cuts, Burns and Scalds.

WHAT IT IS.

1st. It is in one word a cure; it is not merely a relief and in no sense a cure; it is the product of scientific research.

2d. It strengthens while it soothes and soothes while it cures; it literally conquers pain.

3d. Its effects are curative and permanent in the whole group of muscular aches and nervous agonies.

4th. It does not merely irritate the outer surface, nor does it merely soothe or relax a constricted muscle. To its specific action a superior curative virtue is superadded.

5th. It penetrates deeply, instantly, searching, 5th. ingly and surely, seeking the pain spot in an effort to conquer.

6th. Each constituent of the formula has its own recognized attribute, fit to serve most surely the cure of pain.

MORGAN COUNTY.

Special Correspondence.]
ESPEL, Feb. 20.—On the night of the 13th inst. Travis Barker's house at Flat Gap, near this place, was destroyed by fire. He thinks it caught from the fireplace some way as it was burning between the ceiling and weatherboarding near the mantle. When he awoke he first tried to extinguish the flames but could not, then tried to get some things out of the house, but was forced out and had to let it burn. But as every bitter has its sweet, it was fully covered by insurance.

Wider D. G. Combs has just returned from Beattyville, where he has been holding a series of meetings. He had eighteen additions to the church. He also talked up the matter of building a church at that place and met with a favorable response. He was sent there by the Missionary Board of the Christian Church to look after the matter, as there is no regular church house in Lee County.

Jeff Couch came very near losing his house by fire last week. Several books and papers were stacked up on a bureau in a room, and a box of matches lay near the books, and by some means the matches were ignited. Next morning on entering the room they found a large pile of ashes instead of the books, and a hole nearly burned through the top of the bureau.

Ira Clark, the plural father, was in town several days last week taking orders for lightning rods, and trying to act as though nothing had happened at his house. He will rod the house of Dr. Lockhart, of this place, and also A. F. Pieratt's new hotel building and J. M. Pieratt's large barn.

A beautiful site has been procured for the public grave yard at this place, and the work of transferring the dead from the old to new grave yard has begun, and will continue until all are moved.

Legan Lindon and **Mrs. Walters** are improving, but **Mrs. Kate Nickell** and **Wm. Prater**, wife and daughter are still in a lingering condition.

Died—On the 19th, at 2 o'clock, **Doc Murphy's** oldest child, cause of death, spinal meningitis. Mr. Murphy lives on Grassy Creek.

Willis Lykins bought of **Samuel E. Bays** last week one of the best bulls in the county, for which he paid \$60.

Peter Paulin and **Mr. Bowlin** passed through here last week with 100 head of hogs for the Mt. Sterling market.

Boone Nickell and son are visiting relatives and friends in this section.

W. B. Good is on a business trip to Mt. Sterling. **B. C. R.**

BEATTYVILLE, Feb. 17.—W. B. Bullock, Sheriff of Owsley County, passed through town yesterday on his way to Lancaster to convey a man named Stapleton to the penitentiary. It will be remembered that Stapleton was convicted at the last term of the Owsley Circuit Court for the killing of Frank Duneagan some two years ago, and was given twenty years in the State prison. He appealed and the judgment of the lower court was affirmed.

G. T. Center, Sheriff of Wolfe County, and **Mr. Bullock** passed through town last Sunday en route to Booneville to attend the Owsley County Court of Claim, and to submit to said court plans and specifications for building a Court House in Booneville. There were several contestants for the contract. We were informed that Mr. Center received the contract at something near \$8,000.

Messrs. Strother and Bush, of Louisville, were in our midst several days last week. They were prospecting for mineral and timber land, and were well pleased with our immense bodies of timber and fine veins of coal.

S. P. Smallwood, our Circuit Clerk, went to Booneville last Monday. He submitted plans, &c. to the court, but was knocked out on the first round by **G. T. Center**. But, you bet, it takes a hustler to head him.

Mrs. Callie Abraham, wife of the Hon. **John E. Abraham**, member-elect to the Legislature from Henry County, is visiting her father **Hon. John G. McGuire**, of this place, and her many friends are glad to see her.

Miss Gray, sister to **Prof. Gray**, our accomplished school teacher, came up on the boat Monday. She will teach music in connection with the Episcopal School.

Old Uncle John McQueen, of this county, was in town last Monday. He says he is now 105 years old, and as spry as the majority of middle-aged men.

The entertainment at the Court House last Friday night was a success. "The Last Leaf" was acted skillfully in the presence of a very large audience.

F. L. Mahan and **E. D. Hughes** left here Saturday with eight horses for the Mt. Sterling market. The horses belonged to **Judge Mahan**.

Miss Nancy Bowman, of this county, left Tuesday on the boat for Pittsburg, Laurel County, where she will begin a school.

Hiram Hogg, the efficient Deputy Collector of Internal Revenue for this district, was in Beattyville Friday.

W. E. Word, of Barbourville, was in town last week, and says that Barbourville is on a big boom.

Several coal boats were shipped on the last tide to the markets below, and sold at fair prices.

Charles Howe, of Mt. Sterling, was in town during the week transacting business.

J. D. Mitchell, Mayor of Richmond, was in Beattyville Tuesday attending to business.

Rev. C. H. Lockwood, of Proctor, left on the steamboat Tuesday for the cities.

Geo. Frazier and **Bob Hogg**, of Booneville, were in town one day last week.

R. A. Watson has been confined to his room two weeks with a severe cough.

Geo. E. Tuck, **C. H. Baker** and **T. J. McDaniel** were in town Saturday.

J. H. Flanery, of Proctor, went below during the week on business.

Brownlow Jamison, of this place, went to Ford during the week.

Capt. B. H. Sales, of Irvine, was in Beattyville on Monday.

Lewis Benton, of Irvine, was in town during the week.

Hon. David Pryse, of Estill, came up yesterday.

The steamer **Favorite** arrived here yesterday.

Bob Smith, of Irvine, was in town this week.

The Robbery in Morgan.

WHITE OAK, Feb. 15th, 1888.

Editor HAZEL GREEN HERALD:

On the night of February 5th, John (Herod's son) Patrick's store was broken into and several things taken. A posse was organized and started on a hunt for thieves. They soon found eleven pairs of boots and a half dozen hats in a hollow log in the woods. On examination one pair of boots proved to be the property of **G. B. Allen**, whose store was robbed some time since. On suspicion we arrested one **Car**, or **Ray Lee**, as he is some times

called, and his son **Dave Lee**. They had an examining trial and **Dave** was held for further trial. He then proposed to me that if the Court would release him he would tell who had robbed the stores of **A. J. Day**, **G. B. Allen** and **Patrick**. The Court agreed to it, and the boy said he and **Stephen** and **Henry Diamond** and another **Diamond** boy, whose name I do not remember, were the ones who robbed all the bee-hives and all the stores. He said **Day** would not sell his goods and they thought he ought to be robbed. He says they divided **Day's** goods and he took his part and sunk them in the river. They destroyed part of **Allen's** goods for fear of being found out. He says the rest of **Day's** goods, which the **Diamond** boys got were hid in a cliff, and the remainder of **Allen's** were in **Hensley Diamond's** stable loft. Parties are hunting the **Diamond** boys and the goods. Yours truly, **W. B. ALLEN**.

Peace on Earth

Awaits that countless army of martyrs, whose ranks are constantly recruited from the victims of nervousness and nervous diseases. The price of the boon is a systematic course of Hostetter's Stomach Bitters, the finest and most genial of tonic nervines, pursued with reasonable persistence. Easier, pleasanter and safer than to swash the virtualizing department with pseudo-tonics, alcoholic or the reverse, beef extracts, nerve foods, narcotics, sedatives and poisons in disguise. "Tired Nature's sweet restorer, balmy sleep." Is the providential recipient of weak nerves, and this glorious franchise being usually the consequence of sound digestion and increased vigor, the great stomachic which insures both is productive also of repose at the required time. Not unfrequently awakens the individual who, uses it, but vigorous, clear headed and tranquil. Use the Bitters also in fever and ague, rheumatism, kidney troubles, constipation and biliousness.

D. LANCELL'S
ASTHMA
AND
CATARRH
REMEDY.

SOLD BY ALL DRUGGISTS.
Having struggled 20 years with a life and death with **ASTHMA** or **PHTHISIS**, treated by eminent physicians and receiving no benefit, I was compelled to seek relief. I had 5 years of my illness to sit on my chair day and night, gasping for breath. My sufferings were beyond description. In despair I experimented on myself by compounding roots and inhaling the medicine thus obtained. I fortunately discovered this **WONDERFUL CURE FOR ASTHMA AND CATARRH**, warranted to relieve the most stubborn case of **ASTHMA** in **FIVE MINUTES**—so that the patient can lie down to rest and sleep comfortably. Please read the following condensed extracts from unsolicited testimonials, all of recent date.
Oliver V. R. Holmes, San Jose, Cal., writes: "I had the Remedy all, and even more than recommended. I receive instantaneous relief."
E. M. Carson, A. M., Warren, Kan., writes: "Was treated by eminent physicians of this country and Germany, tried the climate of different States—nothing afforded relief like your preparation."
H. C. Plimpton, Joliet, Ill., writes: "I suffered with Asthma 40 years. Your medicine in 3 minutes does more for me than the most eminent physician did for me in three years."
W. C. Plimpton, Joliet, Ill., writes: "I send you Remedy at once. I cannot get along without it. I find it to be the most valuable medicine I have ever tried."

We have many other hearty testimonials of cure or relief, and in order that all sufferers from Asthma, Catarrh, Hay Fever, and kindred diseases may have an opportunity of testing the value of the Remedy we will send to any address **TIDAL PACKAGE FREE OF CHARGE**. If your druggist fails to keep it do not permit him to sell you some worthless imitation by his representing it to be that as good, but send directly to us. Write your name and address plainly. Address: **J. ZIMMERMAN & Co., Props., Wholesale Druggists, Union-Wayne Building, Ohio.** Full size Box by mail \$1.00. Jaz29
